Education

Full Stack Web Developement Course
Masai School
2022 - 2023

Computer Science (FYBSc. CS) (Dropout)
Satish Pradhan Dyansadhana College of Arts and Science.
2021 - 2022

Technical Skills

Express.js MongoDB
HTML5 JavaScript Node.js
React Git Redux CSS3
Django TypeScript
Prompt Engineering MySQL
Python Chakra UI

Soft Skills

Deepak Yadav

Full Stack Web Developer

Professional Summary

I'm a dedicated MERN stack developer with a knack for rapid learning and practical problem-solving. Proficient in technologies like Django, Angular, and MySQL, I've harnessed the power of "Generative AI for rapid learning" to accelerate my skills. With a strong foundation in teamwork and collaboration, I'm ready to excel in MERN stack projects, bringing a dynamic tech-savvy approach to the table.

Projects

Masai Vaccination Center   Live Demo Link   Github Repo Link

HTML5 CSS3 JavaScript

- Built an online platform to track the vaccination of patients
- Developed a registration page for users to register
- Implemented a dashboard page with sorting and filtering functionalities
- Created a vaccinated page to display details of vaccinated users
- Utilized HTML5, CSS3, and JavaScript

Clothy (A Eccomerse Platform)   Live Demo Link   Github Repo Link

HTML5 CSS3 React.js JavaScript Chakra UI
Material UI React-Redux

- Contributed to the development of a pocket-friendly e-commerce platform
- Built register and login pages for users and admins with an amazing user interface
